

Endurance Fliers And Engine in Good Condition

Flight Have Continued Indefinitely Had Not the Tail Flatter Developed—Set New Endurance Record of 246 Hours, 43 Minutes and 32 Seconds.

Culver City, Cal., July 13 (AP).—The flight of L. W. Mendell and E. B. Reinhardt came to a sudden end yesterday afternoon when the tail group of their biplane Angelino was fouled, causing a tail flutter and forcing them to land.

The fliers set a new endurance flying record of 246 hours, 43 minutes, 32 seconds—a mark far beyond the 174 hours 59 seconds established by Byron K. Newcomb and Roy L. Mitchell of Cleveland.

An examination of the fliers and their second-hand 220-horsepower Wright whirlwind motor immediately after the flight's end disclosed that both men and engine still were in good condition and might have continued indefinitely had not the tail flutter developed.

"We have to give the engine credit for everything," said Mendell as he clambered out of the plane. "Never before has an airplane engine done anything like this."

And so it was with the fliers themselves. A physician who examined them indicated that the long grind had not greatly harmed them. Thus the flight, which after breaking all existing endurance records, turned into a duel between man and motor, ended in a draw so far as that angle was concerned.

The plane, a second-hand Buhl Airtreader, touched the landing field at 2:13:02 p. m. yesterday. The take-off was at 7:29:39 a. m. July 2.

Debris which had collected on the stabilizer of the plane, coupled with a blow to it from a hatch cover which was torn off the cabin of the Angelino all but forced the endurance craft out of control and abruptly ended its unprecedented flight.

As the fliers climbed stiffly out of their plane, a haggard sort of smile on their bewhiskered, oil-spattered faces, they praised the motor which would not quit and protested the turn of fate that had denied them the opportunity to test their prowess in a fight to the finish with the second hand power unit.

5,000 Present at Landing.

The end came shortly after Mendell and Reinhardt had messaged requesting a 37th refueling contact. As the auxiliary ship took the air and gained its position over the endurance plane, the Angelino, with its tail group wobbling badly, slipped away and landed sharply before 5,000 persons who were watching the refueling attempt were aware that the hardy adventurers had come to the end of their flight.

Mendell looked hale and hearty, while Reinhardt, a bit more pale, stumbled as he attempted to walk away from the plane. Both fliers later said they found themselves strangely weak on their feet.

Mrs. H. Reinhardt greeted her husband with a vigorous embrace before the pilots, in the face of protests, were whisked away to a hospital for the physical examination and a complete rest.

Dr. Frederick Rhodes, who examined them, said their condition was "much better than might have been expected."

"The temperature, blood pressure and pulse of each was about that of a person who would show after violent exercise under ordinary conditions, with the exception that the return to normal was slower."

"While they came through fine, I wouldn't want to see anybody else attempt it."

Mendell and Reinhardt both complained of slight deafness, but this had almost cleared away by the time they were interviewed at their resting place at a hotel.

They said: "In getting this record we have put it as high as possible. It was our intention of making it 300 hours, but due to debris that had collected on the stabilizer and to the hatch blowing off and cutting a hole in the stabilizer of the hull, excessive vibration was caused and we were forced to land 53 hours short of our goal."

In speaking of the last moments of the flight Mendell said:

"The controls seemed to be jammed. For the sake of the record I thought we had better come down. I had no trouble landing but the tail was so heavy I had to hold the stick down with both hands to bring her down on an even keel."

Motor in Excellent Condition.

Inspection of the motor which carried the biplane to its astounding record showed it was in excellent condition.

The motor had been reconditioned prior to the flight after 450 previous hours of duty. The spark plugs, of which there were two sets under a control that the pilot might alternate their use, were declared good.

The connecting wire was off one of one set, which accounted for the report of Chief Pilot L. W. Mendell that he frequently heard what he thought was one or two plays being made.

It was estimated that the Angelino flew approximately 19,760 miles in the journey which had taken only a few miles from the airport. The average speed was 80 miles an hour, with the motor consuming 325 gallons of gasoline.

A new Buhl Airtreader today was en route here, a gift to the fliers from the makers of the plane Angelino. It is powered with a

Steer for Middle Course in Tariff

Washington, July 13 (AP).—Indications were multiplying today that administration forces in the Senate would steer for a middle course in tariff revision, while interest continued to grow in the numerous foreign protests against various rate increases voted by the House.

As interpreted in many quarters, the administration group's preference is expected to follow a line somewhere between the extremes represented in the sweeping revision of rates written into the House bill and the Republican Independents' desire to confine upward changes to farm and related products while reducing present duties on some industrial commodities.

So far that view has been expressed publicly in greatest detail by Senator Edge, Republican, New Jersey, who is convinced that there is justification for "cutting down the House bill" and even the present law in some industrial schedules, but that others should be increased.

Discussion of the foreign protests, meanwhile, brought out indications that the administration was a little more concerned over that from Canada, one of the United States' largest customers, than over those from other nations. The Canadian protest which is understood to be directed chiefly against the House rates on shingles, lumber and feeder cattle, has been outlined to Secretary Stimson by Minister Massey in the form of a conversation.

Australia's tariff policy affecting the United States was made the subject of a statement by Chairman Smoot of the Senate Finance Committee, which is winding up its hearings on the House bill preparatory to starting the rewriting of the measure for submission to the Senate.

Declaring that in the 1926 and 1928 Australian tariff acts, "the American rate was raised, but the British rate was not increased," he cited galvanized iron as an instance, the American rate rising from \$7.20 a ton prior to 1925 to \$14.40 a ton at present, while imports from the United Kingdom continued to be admitted under a \$4.50 rate. This, he said, practically guaranteed a monopoly of the import trade in galvanized iron to Great Britain.

Strikers Attempt To Burn Car Barn

New Orleans, July 13 (AP).—While conciliators were expressing hope over the prospect of negotiating an end of the street railway strike, another overt act was committed by incendiaries.

Early today the night watchman at the old Gentilly car barn saw three men drive up and soak with an inflammable liquid a wall bearing a copy of the federal injunction protecting Public Service property from violence and apply a torch. The building, where old cars are stored, was saved.

Today the citizens' advisory committee, seeking to bring the 1,500 striking Union men and the company into negotiations, planned another meeting with the board of directors of the car company.

Charles J. Theard, chairman of the committee, emerging from an all day session with the board yesterday stated that "while I have nothing definite to say at this time, I am very, very hopeful of the outcome."

Repairs were being completed on stretches of track, torn up in the sabotage of a week ago, for completion of street car service by tomorrow under the protection of United States deputies and policemen armed with shotguns.

Three Held In Opium Plot

San Francisco, July 13 (AP).—The finding of opium worth nearly \$1,000,000 in the trunks of Mrs. Susie Kao, wife of Ying Kao, Chinese vice consul here, resulted in the arrest of the two Suen Foon, chancellor of the consulate, yesterday.

Charges of violating the Jones-Miller Act by participating in a smuggling plot were filed against the trio. Federal officials declared that eight other prominent Chinese here had been implicated. The three were released on bonds of \$10,000 each.

In arresting Mr. and Mrs. Kao Federal officials broke through a maze of technicalities. Ying Kao's last connection with the consulate here was severed yesterday, however, and the arrests followed. Because of the diplomatic status of Kao the Federal officials previously hesitated to arrest either him or his wife. The trunks had been brought into this country under consular privileges.

Federal officers declared that the eight Chinese suspects were so powerful among their own people here that trouble was being encountered in finding Chinese to translate some of the documentary evidence found in Mrs. Kao's baggage.

Wright Whirlwind motor, gift of the Wright Aeronautical Corporation. Cash contributions amounting to more than \$2,000 and possible contracts for screen and stage appearances, as well as for newspaper and magazine articles, awaited the pair when they had completed their rest.

Leon G. McIntire of 53 Pearl street has joined the family of 116 William's Oil-O-Matic oil burner owners in this district and is now enjoying even automatic heat from the Oil-O-Matic, which has been a leader here for six years.

Rosoff Willing To Sell Railroad

Will Turn Over Delaware & Northern Railroad to City of New York at a Nominal Profit—Purchased Road to Operate It.

Samuel H. Rosoff is willing to sell his Little Delaware & Northern Railroad to the City of New York at a nominal profit if the road's right of way interferes with the city's plans for extension of its water supply in the Catskills, he said Friday when he arrived in New York from Russia on the Cunarder Berengaria, states the Herald-Tribune today. The Public Service Commission last Tuesday granted Mr. Rosoff's application for the purchase of the road and gave him authority to organize his company and issue 50,000 shares of common stock without par value.

The city maintained it required fourteen miles of the road's right of way for reservoir and other works in connection with the water system. The road, which has been in the hands of receivers since 1921 was purchased December 15, 1923, by Mr. Rosoff for \$70,000. The road runs from East Branch, Delaware county, through Corbett, Downsville, Pepacon, Shawtown, Union Grove, Arena and Margaretville to Arkville, a distance of more than thirty-seven miles.

Purchased Road to Operate It.

Mr. Rosoff told the commission that he had not purchased the road with the idea of selling it to the city, but wished to develop it for the business that would come to it through reservoir construction. Yesterday, on his arrival, he said that if the city needed the property no condemnation proceedings were necessary because he was willing to transfer ownership for a nominal profit. He did not specify what that would be.

Mr. Rosoff, who came to this country as a Russian immigrant in 1892, returned from his first visit to his homeland. He confirmed the reports that his project for the construction of a \$200,000,000 subway system in Moscow had fallen through after his conference with Soviet authorities.

Diplomatic difficulties, he explained, made him believe the proposition offered him had too great a risk, and while Moscow needs a subway system and a new water supply, he was not willing to undertake construction until he had some assurance that the United States could guarantee that he would be paid for his work.

BENEFIT FOR NURSERY ASSOCIATION OF LLOYD

On Friday evening of next week, the Nursery Association of the Town of Lloyd which is doing such splendid welfare work, in Southern Ulster will be given a benefit performance of "Saturday's Children," by the players of the Elverhøj Theatre at Milton, the play which will begin on Monday night next. More and more these charming plays so remarkably well produced are attracting people from a wide area, and a full house is expected for this benefit.

WEATHER OUTLOOK FOR NEXT WEEK

Following is the weather outlook for the week beginning Monday: North and Middle Atlantic States—Generally fair except local thunder storms about Thursday and Friday. Temperature near normal at beginning of week, warmer middle and cooler at the end of week.

ELTING RECEIVES \$20 FOR CONSCIENCE FUND

New York, July 13 (AP).—The conscience fund of the customs office was swelled by \$20 today when an unsigned letter from Rochester, N. Y., addressed to Philip Elting, collector of the Port, stated: "Herein you will find \$20, the same to be applied to duties as a conscience fund."

Poughkeepsie Strikers Cleared.

Seventeen members of the International Hod Carriers, Building and Common Laborers' Union of America, Local No. 593 of Poughkeepsie, who are on strike at the Eighth ward school job, were discharged Friday when Justice of the Peace F. C. Carhart of Fishkill dismissed charges of rioting against them. The strikers were charged with violation of Section 2090 of the Penal Code, which makes rioting a felony. They were arrested by four State Troopers and some deputy sheriffs when they stopped a truckload of non-union laborers from Beacon, enroute to the Poughkeepsie grade school job, Wednesday, and sought to dissuade them from continuing work.

Fined \$10 for Throwing Brick.

Charged with assault in the third degree because he hurled a brick at Wally Cloud at East Kingston which caused an injury that necessitated attention at the Kingston Hospital, Lee Archer was arrested by Constable Edward Pierce. Justice of the Peace Alexander Speers of the town of Ulster, before whom Archer was arraigned, imposed a fine of \$10 on the defendant's plea of guilty. Later the fine was paid at the Ulster county jail by Archer's wife.

Buys an Oil-O-Matic.

Leon G. McIntire of 53 Pearl street has joined the family of 116 William's Oil-O-Matic oil burner owners in this district and is now enjoying even automatic heat from the Oil-O-Matic, which has been a leader here for six years.

Fruit Prospects In New York Are Not of The Best

Albany, July 13 (AP).—Fruit crop prospects in New York state are not of the best, largely because of unfavorable weather conditions, according to a forecast issued by the state department of agriculture and markets.

Warm weather during early spring enabled fruit buds to make an early start and then injured many by low temperatures, particularly in the Hudson valley. Wet, cold weather prevented proper pollination of the blossoms and continued cool, wet weather during May prevented many orchards from receiving proper protection from insects and disease organisms.

Prospects for the apple crop in this state indicated 20,494,000 bushels, compared with 21,500,000 bushels last year. Pear production promised to be the poorest in years, with about 1,228,000 bushels forecast by the department, compared with 1,800,000 bushels last year.

"The grape crop," the forecast continued, "while not as good as last year, appears to be making good progress, with a condition of 72 per cent, compared with 73 last year. "Cherry production promises to be light this year, although better than last year. In the Hudson valley conditions are poor and they are only fair in western New York. Bad weather seems to have been the limiting factor."

Find Body In Furnace

Chicago, July 13 (AP).—The body of Theodore Hammel, 50, was found last night in a furnace, burned beyond recognition.

Police early today were unable to determine whether it was murder or suicide.

Hammel's wrists had been bound loosely together with telephone wire and his body wrapped in burlap, which had been soaked with kerosene. Unburned shreds and charred bits of the burlap were found in the ashes of the furnace.

The body was found by Hammel's niece, Miss Carmen Hammel, and a friend, James Clegg, who had been requested by Mrs. Hammel, the dead man's wife, to look for him when he failed to return home last evening. He had gone in the morning to do some work, and Mrs. Hammel, an invalid, feared he might have been overcome by the heat.

Miss Hammel and Clegg had searched the building and were about to leave the basement when she remarked jokingly: "Let's look in the furnace; maybe he crawled in there to keep cool."

Police learned that Hammel recently had experienced financial difficulties and that the vacant building was mortgaged for \$26,000.

Police said they believed Hammel, crazed from worry, crawled into the furnace, after wrapping himself in the saturated burlap and binding his wrists, and set himself afire.

Clegg and Miss Hammel were released after being questioned.

More Manchurian Troops Advance

Moscow, July 13 (AP).—Tass, the official Soviet news agency, said in reports published today that Manchurian troops had advanced to "the very frontier" of Eastern Siberia and Manchuria.

The Manchurian troops were said to include well-armed Russian White Guards. The dispatches carried the first advice of seizure by Chinese officials of the Chinese Eastern Railway.

There was no comment in the dispatches on the Harbin reports, nor was there a hint at the Russian action to seizure of the railroads. Neither was there any mention of Soviet military activity. Harbin dispatches to Rango, Japanese news agency, said Soviet troops had mobilized on the Eastern Siberian frontier.

The Tass dispatch read in part: "Simultaneously with news of seizure of the management of the Chinese Eastern Railway came the report of concentration along Soviet frontiers of Manchurian troops fully armed and on a war footing, which had moved to the very frontier."

According to the same reports, Russian White Guard detachments, which the Manchurian commanders intend to send forth on Russian territory were lined up with Manchurian troops facing the frontier.

Charged With Highway Robbery.

Topeka, Kansas, July 12 (AP).—A complaint charging Mrs. Vivian Scaper, formerly 25-year-old brunette, and her companion, Cecil Street, 24, with highway robbery in the \$14,669 Security Benefit Association daylight holdup here two weeks ago, was filed yesterday in the court of Topeka. Conviction would carry a 10 to 21 year sentence in the State Women's Industrial Farm, for Mrs. Scaper, who is the mother of an eight-year-old daughter and a similar term in the state penitentiary for Street.

Traffic Violators In Police Court

Several Arrests Made For Various Traffic Violations—John H. Hutton Held on Serious Charge—Other Cases in Court.

Ten cases were brought to the attention of Judge Shufeldt in police court this morning, mostly for traffic violations.

John Madden of R. F. D. No. 2, was fined \$10 for operating a car on Broadway without lights and without having license papers with him.

Miss Ruth Washburn of Saengerettes, who parked in the restricted area on North Front street, was given a suspended sentence.

David Aronow of New York city was fined \$10 for operating a car with inadequate brakes.

John T. Monahan of Philadelphia forfeited \$5 cash bail for failure to answer to a charge of parking in the restricted area on Wall street.

John Borelio of Brooklyn was fined \$5 for passing the red light at the Roundabout Creek Bridge.

John Kelly, a stranger, who had only one foot, was given a suspended sentence of 15 days in jail provided he left town today. He was soliciting alms on East Grand.

Nathaniel Weyl of Woodstock forfeited \$5 bail for failure to answer to a charge of parking in the restricted area on Wall street.

William Haupt of Highland Mills, arrested for parking in the restricted area on Wall street, had his hearing adjourned to Monday.

John Freeman of Albany forfeited \$5 bail for failure to answer to a charge of parking in the restricted area on Wall street.

John H. Hutton, 52, of 29 East Union street, was arrested this morning by Sergeant Simpson on a warrant charging Hutton with a revolting crime. Hutton told the judge he desired to see a lawyer and the hearing was adjourned to July 23 and bail fixed at \$2,500.

LABORERS ON PINE BUSH ROAD STRIKE FOR PAY

Friday a strike of forty laborers employed by the Albany Highway Construction Company, Inc., practically stopped work of paving the Bullville-Pine Bush road. The striking employes have received no pay since May 1, according to Jesse E. McKee of New York, spokesman for them, and Earl H. Houghtaling of Walden, their attorney. Mr. Houghtaling plans to file with the state comptroller at Albany liens against the construction for back pay due the men, totalling \$11,000. Meanwhile the Albany concern was said to be planning to pay off the men with money obtained from outside financial sources. On Thursday the company closed its commissary in the camp and the men were compelled to appeal to the postmaster of the town of Crawford for help.

TEST SHIP-TO-SHORE RADIO-TELEPHONY

New York, July 13 (AP).—Tests of ship-to-shore radio-telephony, with the object of providing service for passengers, are being conducted by the Cunard Line.

The liner Berengaria was in port today with three French engineers aboard who had carried on a series of conversations with Paris during the last westward voyage.

Similar tests have been made previously but only as a telephone engineering experiment. This is the first attempt to install a practical service.

FIRE DEPARTMENT CALLED OUT FOR TWO DUMP FIRES.

Friday evening about 5:30 o'clock the fire department responded to an alarm from Box 28 for a fire in the Abel street dump. At 1 o'clock this morning an alarm from Box 15 called them for a fire in the dump in one of the old quarry holes of the Newark Lime & Cement Company in Ponckhockie.

Why "Show Boat" Was Late.

It was a matter of sincere regret and not a little embarrassment to Mr. Lazarus that through the operation of new mechanisms by new men, a slight accident to the mechanism at the Kingston Theatre Friday evening caused the first performance of "Show Boat" to begin an hour late. As soon as the trouble was reported to Mr. Lazarus he sent his experienced operator from the Broadway Theatre and in a very few minutes all was right. No announcement of the trouble was made to the waiting audience because it was thought that every minute all would right.

Nine Million Tied Up.

Jacksonville, Fla., July 13 (AP).—Approximately \$9,000,000 in depositors' money was tied up today as state and federal banking authorities worked toward the reorganization or liquidation of six Florida banks which have closed within the last eight days, five of them since Thursday. The latest to fail were two in Daytona Beach.

Curtis Leaves For Washington.

Topeka, Kan., July 13 (AP).—Vice-President Charles Curtis departed last night for Washington after spending a ten-day vacation at his home here with his sister, Mrs. Rome Colvin. The vice-president was expected to go directly to Washington and then to visit his daughter, Mrs. Webster Knight, in Providence, R. I.

Air Race Over Atlantic From Paris To New York

Captain Coste and Joseph Leblin In Question

Mark and Two Poles In Other Plane—Routes of Two Planes Subject of Some Speculation—Weather Bureau Predicts Fine Flying Weather.

Planned Trip For Two Years

Paris, July 13 (AP).—Major Camille Kubala and Ludwik Idzikowski, Polish aviators, have been planning a westward crossing of the Atlantic by air for two years. Their attempt last year failed when they were forced down in the Atlantic 60 miles west of Cape Finisterre, Spain, and after being missing for 60 hours were picked up.

Major Kubala is 34 years old and was a pilot in the Austrian army during the war, joining the Polish air force in 1918. Major Idzikowski is 38 years old and learned to fly while in the Russian army in 1915. During the war he won many decorations and became known as a master of bombing planes.

Captain Coste flew with Joseph Leblin to South America in October, 1927, and then flew to the United States in easy stages. He is 37 years old and fought 54 combats with 994 hours of combat flying during the war. He wears the Legion of Honor, the Medaille Militaire, and the Croix de Guerre with nine palms and two stars for his air prowess. Maurice Alexis Jacques Bellonte, mechanic, navigator and radio operator on Coste's plane, is 33 years old and was a war pilot.

Tribute Paid American Fliers

Rome, July 13 (AP).—An impressive demonstration of tribute has been accorded the two American transatlantic aviators, Captain Lewis A. Yancey and Roger C. Williams, by the citizens of Rome.

At a mass meeting in the Piazza Colonna last evening 20,000 spectators, including many black-shirted Fascists, cheered the aviators to the echo as General Italo Balbo, under secretary for aviation, bestowed Italy's gold medal for aeronautics on them.

Prince Boncompagni-Ludovisi, governor of Rome, conducted the fliers, General Balbo, and other official guests to the balcony overlooking the square. General Balbo himself planned the medals upon the breasts of the two fliers, who flew their plane, the Pathfinder, from Old Orchard, Maine, to the Eternal City, with one stop enroute, Santander, Spain.

The round of official and private receptions continued today. The aviators were making plans for departure next week from Southampton for the United States.

Germany and Belgium Agree

Brussels, Belgium, July 13 (AP).—Negotiations between representatives of the German and Belgian governments for settlement of the long pending marks question have been concluded and an agreement has been signed.

When the reparations agreement embodying the Young plan was recently signed in Paris, the Belgians made their acceptance of it conditional upon a definite settlement on the marks question. The German marks left in Belgium at the end of the war subsequently became valueless.

Under the agreement signed today Germany promises to pay Belgium 27 annuities beginning March 31, 1930. The first will amount to 135,750,000 Belgian francs (approximately \$3,500,000). Thereafter Germany will pay three consecutive annuities of 154,150,000 francs (approximately \$4,150,000); eight consecutive annuities of 222,716,000 francs (approximately \$5,225,000); eight annuities of 172,174,000 francs (approximately \$4,225,000); and seventeen annuities of 139,932,000 francs (approximately \$3,225,000).

Secures Business Position.

Miss Margaret Donald, an honor graduate of the shorthand and typewriting department of Spencer's Business School, 237-239 Fair street, has secured a permanent position as stenographer, secretary and typist with L. S. Winne and Company, hardware and paints, 329 Wall street, this city.

Alan Hoover to Join Parents.

Stanford University, Cal., July 13 (AP).—Alan Hoover, younger son of the president, was enroute to Washington today to join his parents. He will spend most of the summer at the White House. He plans to enter Harvard for post-graduate work.

Le Bourget, France, July 13 (AP).

Two giant airplanes, constructed for use over land, headed out across the north Atlantic today in the first transoceanic air race from Paris to New York.

One of the planes was a single-engine, single-engine, named the "Marchal Pilsudski" from the bold hero at 4:47 a. m. (10:47 p. m. Friday E. S. T.) and pointed its nose westward.

The other plane was the "Question Mark"—single-engine, single-engine, named the "Question Mark" after the question mark. It was piloted by Captain Dieudonne Coste, who once flew the South Atlantic with Joseph Leblin. Captain Coste succeeded in getting his heavily loaded plane in the air at 5:32 a. m. (11:32 p. m. Friday E. S. T.), just 45 minutes later. He was accompanied by his mechanic and navigator, Jacques Bellonte.

He had been mysterious as to his destination, letting it be known as Tokyo. But this was accepted generally as a deception necessary to evade French transoceanic flying restrictions. When he had departed the makers of his plane and its motor announced his destination was New York.

Captain Coste had planned originally to take off before the Poles but he deferred his own start 45 minutes in view of the greater speed of his plane, which is capable of 125 miles an hour against 110 miles an hour of that of the Poles.

Given ideal flying conditions the French plane might expect to reach New York within 29 hours, and the Polish craft within 32 hours, or some time Sunday morning. Weather conditions over the North Atlantic usually adverse to east to west flying, were expected to delay them, however.

Both planes carried wireless apparatus, that of Captain Coste being equipped with two sets. At 6:59 a. m., one hour and 18 minutes after his start, he communicated with the ports of Cherbourg and Havre that "all is well." It was regarded as doubtful that the Poles' radio would function, since they had had considerable trouble in tuning it.

No sighting of the planes after their departure was reported immediately. The first came from Tours, which saw the Frenchmen at 6:24 a. m.

Routes Subject to Speculation.

The routes of the two planes were the subject of some speculation, but it was understood each intended to fly westward to a point north of the Azores, and then take a northerly route to Halifax, cutting down the Atlantic seaboard to New York.

It was this route that the Poles followed last year on their first attempt to cross the North Atlantic. They were forced then to turn back to Europe when they reached a point near the Azores.

Aviation circles regarded as little short of remarkable the take-off made by Majors Idzikowski and Kubala, who had their plane in the air within 800 yards of its starting point.

Captain Coste's take-off was much more difficult, even though his plane was less heavily loaded. The Brequet rolled an unusually long distance in about 20 seconds before the wheels of the carriage left the ground. Then with apparent great difficulty it just cleared the trees at the southern end of the field, barely 50 feet high.

Predict Fine Flying Weather.

The weather bureau predicted fine flying weather, particularly along the southern route, which measures slightly more than 2,000 miles. Fine fair weather, it was said, would prevail along the 42 and 41st parallels, with a high easterly breeze of 7 to 5 miles an hour, which should help them along.

Captain Coste's Brequet plane was equipped with a 450-horsepower Hispano-Suiza motor. The ship was loaded with 15,000 gallons of gasoline and 70 gallons of oil. It weighed a little more than 12,000 pounds. The plane had a range of 6,000 miles. The Polish craft had a Lorraine-Dietrich 500-horsepower motor. It carried 14,230 gallons of gasoline, and weighed 17,000 pounds. Despite the greater weight they had a range of only 5,000 miles. Majors Idzikowski and Kubala carried a well-stocked larder with beef-extract tubes, two vacuum bottles containing coffee, bananas, sandwiches and the inevitable bottle of champagne, which they expected to drink en route. Captain Coste's food compartment was even more luxuriously furnished. "I have enough food here for two weeks," he said.

Scotch Geologist Resigns.
Glasgow, July 12 (AP).—Professor John W. Gregory will resign from the chair of geology at Glasgow University in September. He was one of the party of first white men to cross Spitzbergen and also to enter Tibet. He crossed the Australian desert to mid summer, and in 1926 trekked 1,500 miles to Mount Kenya.

Just East of Broadway on 45th Street

Remember the address—when you are in New York on business or pleasure for a few days or just over night. And once you have been a house guest at this particularly agreeable and very personal new hotel you will always remember the name:

Knickerbocker

And will always make it your New York transient home, as so many do. Very modern in all its appointments. Persistently "Knickerbocker" in its atmosphere of serviceable hospitality. In the very center of things—yet protective, unobtrusive and unobtruded. Every service is a pleasure. The rates are most moderate. Large, airy rooms with private bath, from \$1.50. Or with connecting bath, at \$1. Breakfast (Club) from 40c. Lunches from 65c. Table d'hôte Dinner, \$1.25.

Farming in New York State

By The Associated Press.

Albany, N. Y., July 12 (AP).—The annual celebration of the 100th anniversary of the establishment of the first strawberry was celebrated recently by Indians on the Tonawanda Reservation near Buffalo in the presence of several hundred spectators.

Garbed in gaily-colored costumes, the Indians gave thanks to the great spirit in festival dance for the abundance of things supplied by nature. At the close of the ceremony Indians and visitors were served with a drink made by stewing the wild berries for several hours.

Farmers in the vicinity of Buffalo report the earliest clover crop in twenty years.

Fruit growers of Schenectady county will tour Western New York and the Canadian province of Ontario under the auspices of the county farm bureau. The tour will start August 1 and will take three days with two stops in Niagara county and three in Ontario.

Information blanks prepared by the State College of Agriculture at Cornell University are being filled out by grape growers in the Finger Lakes region as part of the first grape crop survey. The survey is being conducted by the Finger Lakes Grape Growers Committee.

Letters were mailed to 567 growers and the information received will be summarized and distributed before fall harvesting is started. The information includes the acreage discontinued to date and the variety as well as the minimum wholesale price required over a period of years to enable the growers to continue their present acreage and production.

A summary of weather and crop conditions throughout the state issued by the U. S. Department of Agriculture for the week ended July 2, stated that the drought has been broken except over the Long Island section. It continued:

"The harvest of alfalfa and clover was delayed and some damage caused by frequent rains. Timothy hay is about ready to cut, and pastures are much improved. Corn and potatoes, although backward, are doing well; some fields of early planted potatoes are up to a good stand. Wet ground has delayed the cultivation of field crops in some sections. Wheat is turning and there is still complaining of much smut. Early sown oats are looking good, and some barely is beginning to head. The setting of early cabbage is well along. Early peas are ready for the market and a short crop is reported. Apples are advancing rapidly and are in good condition where well cared for. Strawberry picking is completed in the Hudson Valley but in full swing in the Oswego region. Cutworms have caused severe damage to various crops, especially to corn, newly set cabbage and muck crops."

RUSSIAN WORKERS PAY DOCKED WHEN BREAKAGE OCCURS

Moscow, July 13 (AP).—Revelations of inefficiency and carelessness among workers in soviet institutions have brought about a new law by which negligent workers may be docked up to a third of their monthly wages, especially when breakage or similar waste occurs. Violations of rules are among the offenses listed in the decree.

The worker has seven days in which to appeal to the control commission of the enterprise or to the labor court, but the decisions of these bodies are final.

The damages are assessed for loss or breakage of tools, damage to machines, losses from stock rooms, misplacing of legal documents or money and similar offenses. It is hoped that the measure will reform many of the weaknesses in soviet industry and business found by an efficiency board composed of peasants and workers.

The chief failings reported by the inspectors were that officials and public employees came to work late in the mornings and permitted long delays in assigned tasks.

At the Grosbank, the Soviet Union's main bank, 137 employees reported for work long after opening hours, the efficiency experts found. They also said that civil service men wasted many working hours in the buffets, dining rooms and barber shops attached to soviet institutions.

For mutual protection, employees reporting for work on time signed the names of negligent comrades. These tardy ones in turn committed similar misdemeanors when their friends felt more like loafing than working.

THE VLY.

The Vly. July 12.—The regular annual picnic will be held on the church grounds July 25 both afternoon and evening. Music will be furnished by the American Mechanics Band of Kingston. There will be a fancy booth and supper will be served. If stormy it will be held the next fair day.

Mr. and Mrs. Ingart Olsen have returned to their home in Brooklyn for spending some time with her parents, Mr. and Mrs. P. Olsen.

Mr. and Mrs. George Wurster and son George, Jr., were guests at the Palen farm over the week end.

Mr. and Mrs. Korman and family are spending the summer in their summer home in this place.

Miss Ethel Krom and Miss Ethel Morris are employed at the boarding house of Mr. and Mrs. John Gabrielsen for the summer.

Mrs. Thomas Olsen, Jr., and daughter are staying with Mr. and Mrs. Thomas Olsen, Sr., for two weeks.

Church services this Sunday at 2:45 p. m. All are welcome to attend. Walter Moeller made a business trip to Kingston on Tuesday last.

TRITZKY, BEFUL AT "PRESS LIES," BECOMES A CLAM.

Brooklyn, Friday, Edward Island, Turkey, July 12 (AP).—His latest for Stalin, who claimed him from Russia, and he landed the German, which refused him admittance, from Tritzky, called Bolshevik chairman, and added another blow. This time it is in the press of the world.

It was not always true. When he emerged from his mouth of virtual imprisonment in the soviet consulate in Moscow to the more luxurious atmosphere of a Pera hotel, he had much to say and said it willingly. But when reporters sought to learn what he hoped to do in England he looked the face of a fish in a tank.

The windows of his windows were heavily closed, a large police dog watched. The news-gatherers knocked and knocked, and finally the door was unlocked, half-opened, and the pallid face of Tritzky's young secretary appeared.

Mr. Tritzky, he said, would have been seen by no members of any press, local or foreign. Mr. Tritzky was surely grieved at the garbling of his published articles and at the false reports which necessitated his issuing denial after angry denial. The secretary cited a staid London newspaper which averred that Tritzky was no real exile, but that, in connivance with Stalin, he was posing as one in order to carry on clandestine communist propaganda in the Near East.

Another "Infernal He" (the term is that of the fiery Bolshevik himself) informed the British public that the former partner of Lenin had finally deserted the faith and had written a submissive letter to Stalin, promising allegiance if he were allowed to return to Russia.

BRAZIL SURPRISED AS PISTOL TOTING GROWS

Rio Janeiro, July 13 (AP).—Recent reports from Washington that Brazil bought more firearms in the United States than any other country in the early weeks of the year has caused surprise here. Carrying revolvers or other concealed weapons in this country is forbidden, but in many sections the law is not enforced.

In Pernambuco there is strict enforcement and the state police seize arms carried illegally. There was a dumping at sea of such confiscated revolvers to the number of 7,283 by the Pernambuco police recently. The seizures covered a period of several months.

Wisdom Not Everything

"A poor man may be very wise," said Hi Ho, the sage of Chinatown. "yet his poverty shows that even Wisdom may be indiscreet."—Washington Star.

HIGH FALLS

High Falls, July 12.—All are glad to hear that the Rev. S. Glover Dunne, of West Park, the popular young rector-in-charge of St. John's Church, is recovering from his recent illness.

The Rev. Langsing G. Putman of St. Andrew's Church, at Poughkeepsie, had charge of the Sunday evening service at St. John's church and gave a very interesting sermon, taking his text from Phil. 3:26.

Donald Frederick, son of Mr. and Mrs. H. Wells, was baptized Sunday evening at St. John's Church, by the Rev. Langsing G. Putman.

Miss Winifred Smith is spending the week with Mr. and Mrs. Charles MacKinnon at Newark, N. J.

Frank Joseph, who has been spending a few days at the home of his mother, has returned to New York City.

Fred Kanestrin of New York city, spent the week end at his home here.

Mr. and Mrs. James Joseph of Tannersville were guests of Mrs. Catherine Joseph on Sunday.

Mr. and Mrs. Roy Gheas and daughters, Ruth and Betty, of Brooklyn, are guests of Mrs. Maria Gheas.

Mrs. Ralph Savage of Interlaken, N. J., is a guest of Mr. and Mrs. Ganse Beach.

William Flannagan and son, Frank, and daughter, Miss Isabel Flannagan, of Kingston, Mr. and Mrs. Murray and William E. Flannagan of Brooklyn, Mrs. Ralph

Savage of Interlaken, Mrs. Ganse Beach, Mrs. Ebert Schoonmaker, were callers at the home of Mrs. Catherine Joseph, on Tuesday evening.

Mr. and Mrs. Yail Coats and Mrs. Andrew Lapoh and son, Samuel, of White Lake, were guests of Mr. and Mrs. Charles Lapoh on Sunday.

Mrs. Elizabeth Muller of Walden is a guest of Mr. and Mrs. Mosley Hoffman.

The Misses Margaret and Martha Flannagan, who have been spending a few weeks at their home here, returned to New York city on Tuesday.

Mr. and Mrs. William Cobb and son, William, and daughter, Miss Marie Cobb, and Frank Jackson of New York city, spent the week end at the home of Mr. and Mrs. F. Kanestrin.

Mr. and Mrs. E. H. Clark and daughters, Marion and Janette, and son, Albert, left Friday morning for a two weeks auto trip to Watkins Glen, Niagara Falls and the Thousand Islands.

The church school at St. John's Church meets at 9:30 Sunday morning. Evening prayer and sermon, at 6:30, Sunday evening, daylight saving time. A cordial welcome to everyone.

WHALEMADE BIG HAUL IN SOUTHERN SEA.

Sydney, Australia, July 12 (AP).—It is estimated that 6,600 whales have been killed in the last six years in the Ross Sea by three whale factory ships and their attendant chasers.

According to reports received from New Zealand, the Norwegian factory ship C. A. Larsen made 75,000

barrels of whale oil, representing a catch of 266 whales, and valued at approximately \$5,500,000 in the United States. The St. James Clark Ross, who left New Zealand for Europe, had on board 49,600 barrels of oil, representing a catch of 543 whales. This made a total of 1,329 whales for the two ships in four months.

The N. T. Nielson Alonzo, which returned to Hobart from the Ross Sea recently, was reported to have treated 132 whales, which yielded 62,500 barrels of oil. Thus the three whalers, representing only one season, have accounted for 2,342 whales this season.

Adding this season's reported catches to the official figures for previous years published by the New Zealand Marine Department, the three factory ships have accounted for more than 6,600 whales in six years.

Hi Folks!

ALL THE SWELLS ARE NOT IN THE OCEAN!
AND WHERE ARE THE REST?

WHY AT

SCHOENTAG'S Mammoth Pool

And Having the Time of Their Lives... For It's the Biggest, Gayest, Newest Pool for Miles and Miles Around... Where It's Always Fair Weather When Good Friends Get Together...

And we can Shoot the Shoots on the Slides... or take a nose-dive off the "plank"... or—in case the spirit is daring but the flesh is weak—just paddle around at the shallow end and pretend we're kids again.

SO DON'T HESITATE FOLKS—For He Who Hesitates is Lost—But Dig Out the Little Old Bathing Suit from its Winter Hibernation 'Midst Moths and Moth Balls...

And Swing in Line with the Rest of the "Gang." All Eager, Laughing and Happy, and Headed for...

SCHOENTAG'S Mammoth Pool

ONLY 7 MILES NORTH OF KINGSTON
AND 3 MILES SOUTH OF SAUGERTIES
ON THE SAUGERTIES-KINGSTON ROAD

Church And School Notes

Albany, N. Y., July 12 (P).—In the Little Roman Catholic Church on the St. Regis Indian Reservation hangs a bell which, if tradition be true, could ring out wild tales of Indian massacres from the dim days two centuries ago, before it entered upon its peaceful mission of calling the dusky children of the forest to worship.

Away back in 1794, so the legend goes, the bell hung in the little hamlet of Deerfield, Mass. In that year the Caughnawagas Indians sacked and burned the town and during the raid the bell disappeared. Years after a branch of the Caughnawagas made its headquarters on the St. Lawrence River at the spot where the village of St. Regis now stands. Still later a bell appeared in the tribal church and about it legend centered until it became well established.

At least two historians are said to have confirmed the truth of the tradition which claims that the St. Regis bell and that taken at Deerfield are identical. The Indians are said to have carried the bell through Vermont over an old war trail, dragged it across Lake Champlain at Rouses Point and down the Richelieu to St. Johns and thence across to Caughnawaga.

The summer demonstration school, a branch of the Summer Session at State Teachers College in Buffalo, has reported an enrollment of 1,400, the largest registration in its history. More than 25 children were enrolled in each class to be used as models in the demonstration of teaching methods. Teachers of methods will see exemplified the practices which they recommend in their college classes.

New Schools planned or already in course of construction in New York state include the \$4,000,000 Abraham Lincoln High School at Coner Island; a \$475,000 elementary school and a \$190,000 school annex at Kenmore; a \$399,000 high school in Penn Yan; a \$100,000 school at Toddville, Dutchess county, and a \$280,000 addition to the Little Falls High School.

The summer session at Syracuse University has been divided into two terms, the second of which will open on August 12 and continue to September 13. Courses in public school methods will be emphasized.

Other courses included will be general science methods, history methods, public school art methods and several courses in history and principles of educational psychology, educational administration and supervision, secondary education and special class methods.

Forty Hours AT HOLY NAME CHURCH. The Forty Hours Devotion will begin in the Holy Name Church, Wilbur, Sunday at the High Mass at 9:30 and will continue through Monday, and end on Tuesday morning at the 8 o'clock Mass. All are urged to visit the church during this precious time of prayer and adoration.

MARLBOROUGH. Marlborough, July 12.—Mr. and Mrs. Moses returned from New York city on Sunday.

Donald Thorpe of New York arrived Sunday at the home of Mr. and Mrs. C. H. Barry.

Mr. and Mrs. William Turner and daughter, Miss Zita, and Mr. and Mrs. Newburgh spent Sunday with their daughter, Mrs. H. Menden.

Mr. and Mrs. Thomas Newell entertained friends from Jersey City on Sunday evening at their home.

Miss Margaret McConnell is enjoying a two weeks' vacation from her duties at the C. H. & O. office here. Mrs. Harry Dangle is filling her place during the two weeks.

Miss Sara Newell called on Miss Mary Mecca on Sunday.

Mrs. Pavesi and two sons of New York city are spending the summer at the home of Mrs. Alfred Coy.

Mrs. Mary Terpening and son, Alfred; Mrs. Anne Connor and friend from New York city called on their aunt, Mrs. Thomas Newell.

Mrs. Thomas Newell and sons, Thomas and Edith, called on her sister, Mrs. Owen Connor, at Highland on Monday evening.

A number of the members of the Marlborough L. T. L. under the direction of Mrs. Mary Frederick, enjoyed a picnic on the Presbyterian Church grounds recently.

The group gathered at 3:30 o'clock and spent the afternoon playing games. A basket luncheon was served and games again enjoyed for about an hour.

Mr. and Mrs. Henry Kiamer and friends from Kingston called on friends and relatives here.

Fifty dog owners in the town of Marlborough have renewed their dog licenses.

Mrs. Cecelia Walsh spent the week end with friends in Danbury, Conn.

A number of girls returned home last week from the Catskills after spending several days there. They were staying at "Log Cabin Camp," owned by Mr. Williams of Highland.

The girls, who went from here, are Margaret and Edith Quimby, Hettie Gallagher, Helen Meisner, Dorothy Conn, Jennie Mondella, Velda Ennis and Naomi Staples. Miss Marion Williams of Highland was also with them.

Thomas Newell, Jr. spent the week end with friends in Kingston.

During the hot weather many people have been swimming in the Hudson river off Marlborough landing. Every day crowds of local people and visitors at summer houses enjoy swimming during the afternoon and evening.

The Rev. and Mrs. E. P. Lecompte are the proud parents of a baby daughter, born recently at St. Luke's Hospital, Newburgh.

Mrs. Blanche is spending some time with her parents, Mr. and Mrs. William Nadeau, Sr.

Mr. and Mrs. F. N. Johnston entertained about thirty members of the Reveler Club of Newburgh at their home recently.

William O'Sika and Miss Viola Simms motored to New York on Sunday to see the former's father and sister, who were leaving for Europe that day.

was artistically trimmed with Japanese lanterns, pennants bearing the names of the various departments of work of the local union and white ribbon streamers. A large American flag had its place in a corner of the lawn. The tables were attractively arranged. Those on the committee were Mrs. A. H. Coutant, Mrs. Agnes Bushman, Mrs. Mary Fredericks, Miss Ruth Norton, Mrs. C. J. Lockwood, Mrs. I. Kniffin, Miss Mamie Lyons, Mrs. D. Bloomer, Mrs. George Bidwell, Mrs. D. S. Hutchins, Mrs. Carrie Smith, Mrs. Esther Coutant, Mrs. George Butler, Mrs. Gossion, Mrs. Guilford and Mrs. George Coutant.

The waitresses were Lillian Hager, Beatrice Walker, Lily Kennenburgh, Berne and Henrietta Coutant, Maude Dayton, Lois Simpson, Evelyn and Marjorie Bloomer, Muriel and Irma Beckman.

Jack Triviano spent the Fourth of July at Manchester, Conn., visiting his mother and celebrating with his many friends.

Mrs. J. M. Albertson of Mission, Texas, has returned home after visiting her mother, Mrs. Emma Quick. With Mrs. Albertson was her son and wife, Mr. and Mrs. James Albertson, of Atlanta, Ga.

Mrs. David Lecompte of Lakewood, N. J., mother of the Rev. E. J. Lecompte, and Mrs. Julia Hansen of Spring Lake, N. J., mother of Mrs. Lecompte, spent several days at the manse recently.

Miss Frances Bloomer spent several days last week with her cousin, Marian Sears, at Milton.

Mr. and Mrs. Daniel Curtin, Jr. of Marlborough are the parents of a daughter, Mary Ellen, born recently at St. Luke's Hospital, Newburgh.

Mrs. Curtin was formerly Miss Lila McCarthy of Newburgh.

Christian Veterans service was celebrated in the First Presbyterian Church in Marlborough on Sunday.

The service was especially for the older people.

Lyman DuBois of Marlborough has been a member of Guiding Star Lodge, K. of L., for 40 years. He has passed through all the chairs with credit and honor to himself and is representative to the Grand Lodge and has been heard on the floor of the Grand Lodge in different cities.

Interest in the state with great attention and probably no Pythian along the Hudson valley is better known than he. He is familiar with the Grand Lodge laws and knows the ritual from cover to cover. Knights can always learn something of Pythianism when Mr. DuBois speaks from the floor of the lodge.

Guiding Star K. of L. is functioning smartly and has \$4,000 of assets and does not owe one cent of liability.

Mr. and Mrs. Lindsey Hutchin of Newburgh called on friends here on Sunday.

Mrs. Harold Bond and son have returned to their home in Jersey City after spending two weeks with their parents, Mr. and Mrs. Ollie Perkins.

Dr. C. C. Zachoni of Marlborough operated on Joseph Shas of Roseton at the Benedictine Hospital, Kingston, recently for hernia.

A son was born to Mr. and Mrs. Fred Wyrant recently.

Mr. and Mrs. Raymond Pressler and family spent "Fourth of July" with Mr. and Mrs. Raymond Coy at Stonewall and from there with a party of friends went to Walton Lake.

Mr. and Mrs. Lewis Chidgey spent Monday in Middletown.

Mr. and Mrs. Fred Kniffin and daughter spent the week end in the home of Mrs. Peter Hedlin. Mrs. Kniffin and daughter will remain here for the summer months and Mr. Kniffin will come to Marlborough week ends.

Buddhist Temple in Paris. Tokyo (P).—Japanese Buddhists have opened subscriptions here for half the cost of a \$750,000 temple to be erected in Paris on a site donated by the French government. The other half of the cost is to be donated by friends of Japan in France.

President Gaston Dumerque is listed as a patron of the project and Georges Clemenceau as a member of the advisory board.

New York—Hoyder acquits Hack Wilson of assault charge.

Vancouver—Percy Williams ties world record in 100-yard dash.

Meteor Lanced in Ice.
It is recorded that a meteor that fell at Dhurmasia, India, in 1890, was found coated with ice half an hour or so after its fall; in spite of the great heat generated by friction of the atmosphere the meteor had not had time enough to become heated through. In its interior it still retained the temperature of empty space, some hundred degrees below zero.

Riding has become one of the popular diversions in Washington society. The dubs even play polo (above). Mrs. David S. Ingalls (lower right), wife of the new assistant secretary of the navy for aeronautics, is an enthusiastic horsewoman. So is Evelyn Walker (lower left), prominent in the capital's smart circles.

ELEANOR GUNN
ON FASHIONSMAY ALTERNATE BETWEEN
PRINTED COTTONS AND
SILKS THIS SUMMER

New York.—If one has any doubt as to wearing a sleeveless dress made of one's home other than silk, she may choose a dress with such a deep berth or cape that she is conscious of the dress being short sleeves. Dresses fashioned in these lines are not confined to day wear, either, for dance frocks have deep berths, fichus, caplets and

A Printed Chiffon Frock Has a Cape Which Folds Over as the Model Wears. The Right Front Laps Over the Left Front, and Forms a Very Pleasing Jabot at the Side. The blouse is lengthened below the belt, with peplum portions. The fitted sleeve, flares gracefully at the wrist.

method of softening neck details. Probably if designers had attempted to restate elbow sleeves at this time they would have been frowned upon, but by omitting sleeves alto-

gether and covering the arm to or near the elbow by a deep collar they achieve much the effect of an elbow sleeve as everybody is happy excepting perhaps the very broad shouldered woman who is at a disadvantage in a frock so fashioned. Not only the widened shoulder, but the half and half effect of the arm is unfortunate for her.

Waistlines are settling down, or perhaps one had better say settling up and this too is trying for the large woman. There is however no use denying facts, as skirts come down waists go up and there is little encouragement in the fact that they do not go in as well, but much encouragement in the fact that the line may be broken. An indicated high line is easier to bear than a banded one. For indicating the raised line shirrings and puckered gathers are in use.

There is still enough of summer left to get a great deal of good out of a flowered or figured chiffon dress or ensemble—one can hardly have too many. Indeed the old order changeth and where one may have one printed frock in an otherwise plain collection, now one may dispense with the solid color and alternate between printed cottons and printed silks.

(Copyright, 1929, by United Feature Syndicate, Inc.)

OUR DAILY PATTERN.

A Pretty Blouse.

6537. Printed taffeta, chiffon, georgette, faille or crepe may be used for this model. The right front laps over the left front, and forms a very pleasing jabot at the side. The blouse is lengthened below the belt, with peplum portions. The fitted sleeve, flares gracefully at the wrist.

The pattern is cut in 5 sizes: 34, 36, 38, 40, 42, and 44 inches bust measure. To make a 38 inch size will require 2 1/2 yards of 39 inch material. To face the jabot portion, sleeves and belt with contrasting material, will require 3/4 yard 39 inches wide. To finish with bias binding

The English Take To Colorful Floral Gowns

Left: A gown in floral taffeta designed by Baroque, London. Center: A striking gown in blue and orange figuring on white chiffon, made with long skirt and with coat to match. The picture hat is in white organdy. Right: A dress in powder blue and beige figured chiffon, trimmed with ermine. The hat is of beige felt and Baku straw. Garments center and right shown by John Barker's.

at neck, jabot and sleeve edges will require 2 1/2 yards 1 1/2 inch wide. A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notice. Send 15c in coin or stamps to The Freeman for our up-to-date Spring and Summer 1929-Book of Fashions showing color plates, and containing 500 designs of ladies', misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various simple stitches), all valuable hints to the home dressmaker.

Disturbing Thought

Of course old Adam wasn't very chivalrous nor a very good sport when he said, "the woman tempted me and I did eat," but there are times when we wonder if he did not tell the truth. —Hillboro News-Herald.

PORT EWEN

Port Ewen, July 13.—Esopus Council, No. 42, Sons and Daughters of Liberty will meet Wednesday evening, July 17, at 8 o'clock in their Council Room on Broadway. State Councilor Mrs. Mayme Zenke and State Secretary Mrs. Lottie McClure will make an official visit. All members of the council are requested to be present.

The Ladies' Aid Society of the Methodist Episcopal Church are planning for a supper to be served Wednesday evening, July 24.

Methodist Episcopal Church, the Rev. Frederick G. Baker pastor. Sunday school 10 a. m. Samuel P. Tinnie, superintendent. Adult Bible class, 10 a. m., the Rev. F. G. Baker, teacher. All members of the church are invited to join this class. Morning worship 11. Sermon

subject, "The Death of Uzziah." Epworth League 6:30. Evening worship 7:30. Sermon subject, "The Three Great Commands." Everyone is invited to these services. Come and hear the Gospel expounded by an able preacher.

There will be no preaching service in the Reformed Church as the pastor, the Rev. Philip Goertz is enjoying his vacation. Sunday school 10 a. m., C. D. Van Orden, superintendent.

Church of the Presentation, the Rev. Martin J. Leddy, rector. Mass 7:30-10 a. m. Sunday school 11 a. m.

The Reformed Church will hold a block party on Salem street, between Green and Bayard streets, Friday evening, July 19. Refreshments will be on sale. Music by Mechanics' Band of Kingston.

Two new oil pools were discovered by accident near San Angelo, Tex., when operators were drilling to dispose of waste salt in shallow sand.

POLES DUBIOUS OVER

SHAW'S NEW PLAY.

Warsaw, July 13 (AP).—George Bernard Shaw's play "Apple Cart," which had its world premiere here, was received by the Polish people with serious question of its propriety, though it created much interest and was attended by the leading Polish literary and political lights.

The play deals with an imaginary conflict between the King of England and Parliament in 1662 when America offers to give up its independence and become a dominion of the British empire. The king understands that this would mean that England would be swallowed immediately by the newer country.

The king decides to abdicate and run for a seat in Parliament, but the prime minister withdraws a demand that the king resign the right of veto, rather than see him as a competitor in the House of Commons.

Shaw was not present at the premiere. He is reported to have selected Warsaw for the opening because of interest here in things political.

ENGLISH COMPULSORY FOR BOHEMIAN YOUTH.

Prague (AP).—Teaching of English will be compulsory in all Czechoslovak schools after September 1. The only language which students hitherto have been required to learn was German, one-third of Czechoslovak's population being of Saxon origin.

In order that adults may also acquire some knowledge of English, evening courses will be given in club

houses and schools and English lessons are broadcast over the State Radios three times a week. The state and public libraries lend books in English at a nominal fee of a few cents a month.

An English weekly magazine is published in Prague and a newspaper will soon be started for the benefit of thousands of English and American tourists who visit Czechoslovakia's spas.

PARIS REBUILDS HER PRE-WAR BOULEVARDS.

Paris (AP).—The physiognomy of Paris has completely changed since the war and the Grand Boulevards have been so altered as to be practically unrecognizable. From the Opera to the Madeleine, not more than three or four buildings exist which stood there in 1914.

New hotels, business houses and office buildings have been erected. Two or three of the old and renowned cafes have disappeared to make room for commercial structures.

Before the war one could enter any of the little concert cafes and get a glass of coffee for 50 centimes with a couple of songs thrown in.

Now coffee costs 5 francs and there is no singing. To some that is the most momentous change.

Rays Used in Surgery

Gamma rays are electromagnetic waves of high frequency with wave lengths of from 1.4 angstrom units down to approximately 0.01 angstrom units. Gamma rays are more penetrating than X-rays. Gamma rays have been used for treating such diseases as cancer, tumors, ulcers, congenital warts, etc.

NEW YORK.

Flashes of Life Sketched in Brief

By The Associated Press

New York—J. F. Quinn has been paid a check for two years in repayment of a loan. Quinn is secretary of a committee in charge of the golden jubilee of independence and Ford borrowed from him recently in order to buy a stamp at Atlantic City, having nothing smaller than a \$20 bill. Quinn, putting Ford's watch at a billion, and the time for making out the check at four seconds, says that Henry's income was \$412 while he was decreasing his balance by two per cent of one dollar.

London—Pamela Carmen Louise Mountbatten is one of the richest girls in the world. The king of Spain and Prince George of England are godfathers. Among those at her christening was the Prince of Wales, who is the daughter of Lord and Lady Mountbatten.

New York—Miss Liberty has a new torch. Stronger electric lights on the famous statue have troubled the visitors.

Berlin—Realizing that Americans need water as much as ducks, as a Russian spokesman explains it, the Russians have built shower baths in a special train which will take Americans on a tour through Russia beginning next week, under the auspices of the American-Russian Chamber of Commerce.

Geneva, N. Y.—Adrian Windsor is a nine-year old boy who has an air gun and his daddy's chickens are safe. Adrian brought down a chicken hawk with a wing spread of 26 inches. BB shot stunned the bird and Adrian finished the job with the butt of his gun.

New York—Melvin Ott, 20-year-old home run sensation of the Giants, is amazed at the reputation he has acquired of being an extremely bashful youth pursued by adoring fair ones overcome by his beauty. "Everybody seems to think I get mash notes," he said. "I never had one in my life. All the mail I get is from kids."

New York—It is the dream of Captain Sir Hubert Wilkins that weather conditions for crops will be forecast seven years in advance. He has returned from Europe for another Antarctic expedition in the development of his theory that weather can be prognosticated by air and sea currents about the poles.

New York—In a five-story brownstone house in Fifty-sixth street, the police aver, folks have been playing bridge at one cent to ten cents a point, paying \$1 each per hour at times for the privilege. Mrs. Gertrude Nelson is under arrest charged with running a gambling establishment.

ELLENVILLE

Miss Betty Baker returned to Ellenville on Sunday, after spending the week end at her home in Catskill.

Mrs. George D. Edwell entertained Mr. and Mrs. R. F. Greeley, Mr. and Mrs. Alfred Decker and Mrs. Hayden, all of Binghamton on Sunday.

Mrs. Caroline McNally Brelos and daughter of New York city have arrived at the home of Mr. and Mrs. Irving McNally and will spend the summer here.

Mrs. George Inness, Jr., will entertain on Saturday from 3 to 7 o'clock at Chetolah, Cragmoor.

Mr. and Mrs. William Birchall spent the week end at their camp at Lister Heights.

Miss Thelma A. Palmer of the Englewood, N. J., Hospital, and George Kingswood of Demarest, N. Y., spent the Fourth at the home of Miss Palmer's parents, Mr. and Mrs. Benjamin F. Palmer, of Canal street.

Mrs. Dorothy V. Hocmer and her father, B. K. Van Valkenburgh, returned to Ellenville on Friday after spending several days with Mrs. Hocmer's sister, Mrs. Fred T. Lewis, at her home in Saugerties.

Captain D. H. Odenbrow of Binghamton is spending some time with his sister, Mrs. J. R. Mowle.

Mrs. Joseph Ellis and son, Ralph, of Newark, N. J., spent the week end with Mr. and Mrs. William Cokeriet.

Miss Betsy Garner of Luzerne, N. Y., spent the week end with Mrs. Dorothy Vernon Elberts at the home of her parents, Dr. and Mrs. L. E. Vernon.

Miss Dorothy Emerick has been spending a week with her grandmother, Mrs. George Emerick, of Pawarising.

Miss S. Steinhorn and Miss Coles Weiss of New York city spent the week end at the home of Miss Steinhorn's parents on Clinton avenue.

Miss Alma Vorden Deale of Cranford, N. J., has been visiting her aunt, Mrs. B. C. Sparks of Yankee Place, Roger Breck of Montpelier, Vt., was also a week-end visitor at the Sparks home.

Mr. and Mrs. Herbert Daugherty and Mr. and Mrs. McGinley, all of South Bethlehem, Pa., spent the week end with Mr. and Mrs. Herbert Broas. Beatrice Broas returned with them and will spend the summer in South Bethlehem.

Mr. and Mrs. John L. Brown and two children, John and Evelyn, of Park street, spent the Fourth with Mr. Brown's sister, Mrs. Hugh Townsend of Chester.

Miss Alice Carpenter of Chocoma Falls, who has been spending some time with her uncle and aunt, Mr. and Mrs. E. C. Hocmer, returned to her home Thursday morning.

Mr. and Mrs. Charles H. Oakley of Danbury, Conn., spent the week end at the home of Mr. and Mrs. James Seletas.

Mrs. Edwin Fuller and son, Edward, are spending the month of

July at Bay Shore, L. I. They were accompanied to that place over the week end by Mr. Fuller.

Mr. and Mrs. Paul Dero and child of White Plains spent the Fourth with Mr. Dero's parents, Mr. and Mrs. Miles Dero.

Miss Mabel Fredi of Lynbrook, L. I., is in town for the summer.

Mr. and Mrs. A. Albert and daughter, Esther, spent Sunday in Kingston.

Mr. and Mrs. Earl Hawbrow and children spent the week end at their camp at Glenelg Lake.

Attorney and Mrs. Clarence A. Hoonbeek spent the week end with the latter's parents, Mr. and Mrs. Frank Darland, of Chester, N. Y.

Among those from out of town who were in Ellenville to attend the funeral of Frank Cox are Mr. and Mrs. Amos Sprawl of Goshen, Miss Theresa McMillen, Mrs. George E. McMillen, Mrs. Ann Backman, the Misses Ruth and Margaret Backman and Frank Backman of Brooklyn; Mrs. Byron Thornton and son, Walter, of Saugerties; Mr. and Mrs. John Stewart of Pine Bush; Mrs. H. Goodsell, Mrs. Myra Mandigo and Miss Laura Mandigo of Highland Falls.

John Divine has purchased a new Oakland car from Vanderlyn's.

Mrs. Al Shapiro of Brooklyn is spending some time at the home of her parents, Mr. and Mrs. William Lwigkiet.

Mrs. Ann Backman and Miss Theresa McMillen spent the week end in town.

Irving Richmond was in Millbrook Wednesday on business.

Ben Edsell is seriously ill at his home on Broadhead street.

Attorney and Mrs. H. Westlake Coons and family are spending the week at Beaver Dam.

Miss Virginia Barkley of Monticello, spent the week end at her home here.

Superintendent E. C. Hocmer is spending several days at his camp at the Cape.

Norman D. Young of Bridgeport, Conn., spent the week end with his father, William Young.

Miss Lillian Barber, R. N., of Brooklyn, who has been visiting her mother, Mrs. Sylvia Barber, of Tuthill avenue, expected to leave today for a vacation in Canada.

Mr. and Mrs. George Longwell of Swan Lake, spent the week end with Mr. and Mrs. Henry Heath.

Mr. and Mrs. Arthur Kuhle and Mr. and Mrs. Charles Trochelman

and daughter, all of West New York, spent the holidays with Mr. and Mrs. William Cokeriet.

Miss Ruth Green entertained at bridge at her home in Kortbroek on Thursday afternoon.

Mrs. Harold Ruppert entertained at bridge at her home on Friday evening in honor of Mrs. Waldo Cokeriet and Mrs. Horace Aikman. Prizes were awarded Mrs. Horace Aikman, Mrs. C. C. Stuffer and Mrs. Harold Gidette. Mrs. Waldo Cokeriet received the most prizes.

Mr. and Mrs. Thomas K. Hadden of New York city motored up to their summer home in Grahamsville on Friday to spend the week end.

On Sunday they returned to New York, accompanied by Mrs. Harrison Richards of this village, who will spend a few days with them.

Mrs. C. Chuman of Dallas, Texas, and her niece, Miss Margaret Eisenstein, of Jersey City, were guests at the home of Mr. and Mrs. L. Rose of 16 Pine street, for the week end.

Mr. and Mrs. James Lewis and infant son returned to Ellenville Sunday after spending several days with Mr. Lewis's brother-in-law and sister, Mr. and Mrs. Floyd Van Aken, of Glen Wild.

Mrs. Robert Cragston and daughter, Barbara, of Tarryville, Conn., are spending two weeks with Mrs. Cragston's mother, Mrs. Mary Roberts, on Maple avenue.

Dr. and Mrs. J. C. Coles will drive to Lake Hopatcong on Saturday to visit Mr. and Mrs. E. Bailey at their summer cottage. The doctor will return on Sunday while Mrs. Coles will remain for a few days.

Mr. and Mrs. Daniel Ver Nooy entertained last week Mrs. Olaf Sundstrom and daughter, Sally, and aunt, Mrs. Leah Trombley and son, Harrison, of Yonkers, and Mrs. Laura Dedrick and Mr. Livingston of Poughkeepsie.

Mr. and Mrs. Oscar Bowes of Walden spent the week end with the former's parents, Mr. and Mrs. Daniel Bowes.

Mrs. Burton H. Wood motored to West Point on Wednesday to meet her mother, Mrs. J. R. DeVary who has been visiting her daughter, Mrs. Kenneth Coffin of Sound Beach, Conn.

Mrs. E. C. Hocmer is spending some time with Mrs. Charles Sundstrom of New York city.

Mr. and Mrs. Louis Fredi and

daughter, Barbara, are visiting at the home of Mrs. Fredi's parents, Mr. and Mrs. Alex Brown of Lethbridge. Their five months old daughter was baptized Sunday at the Episcopal Church. Mr. Fredi is manager of an A. & P. store at Hackensack, N. J.

Mr. and Mrs. Harold Robinson and daughter, Dorothy, of Jamaica, spent the week end with Mr. and Mrs. C. M. Boyce.

Charles Campbell of Brooklyn spent the week end at the Mitchell House.

SPECIAL ROUTES SEEN FOR SLOW MOTORISTS

Providence, R. I., (AP)—Trunk roads in Rhode Island are becoming so congested that it is a matter of time before the state will have to devote to second or third grade roads the driver who insists on operating his car slowly. Harold R. Shippee, chief inspector of the state board of public roads, forecasts.

Motoring problems that are not yet acute elsewhere have reached a serious point in this most thickly settled state with its average of more than 544 persons to the square mile.

Comparing the slow driver to the accommodation train, which always has had to take a siding for express trains, Mr. Shippee says the situation here is developing rapidly to the point where there will have to be a right of way for express auto transportation. This will necessarily mean a re-routing of slow-driven machine, he says.

Using one highway as an example, Mr. Shippee points out that 55 miles an hour is perfectly satisfactory speed if the way is clear, whereas at other times five miles an hour might be reckless. A safe speed, he says, is one at which the driver is able to stop "within the known clear space ahead."

The official asserts that it is the inattentive fast driver operating across intersections who causes more than 70 per cent of Rhode Island's automobile accidents.

The Good Old Days
Members of the gold rush in the Black Hills are to be preserved in a museum given Dendwood, S. D., by W. E. Adams, pioneer merchant.

Boys Enjoy Y. M. C. A. Camp

The boys at Camp Presman, the Y. M. C. A. camp for boys, at Glenelg, are surely enjoying themselves at the camp this season. During the past week five men from the New York State College of Agriculture have been at camp for a day each and they have taught the boys many things worth while. Possibly the two outstanding events were when Prof. Pringle appeared and taught the boys how to tie knots and to splice rope. The boys have been making splices with every bit of rope that they could find. And Prof. Cope, a forester, took the boys on a hike through the woods about the camp and taught them many interesting things about the trees. Prof. Cope was amazed at the size of the cottonwood tree that marks a boundary of the property, and expressed his opinion that the tree was the largest cottonwood in the state and would not be surprised if it were not the largest tree about the base in the state as well.

Andrew Dykes and Ward Bricham, Jr., won the senior and junior horseshoe pitching contests, while Munson and DeGraff were the runners up.

A nip and tuck race between the hunkalows in the baseball league, with the doctors group in the lead at present, is creating a lot of interest. A big watermelon has been on the

for a week as the reward to the winner.

The older boys are preparing to leave the camp and will probably be home in a few days. The American Red Cross is now in session at the camp.

The boys at Camp Presman, the Y. M. C. A. camp for boys, at Glenelg, are surely enjoying themselves at the camp this season. SETTING DISCOVERY
ASSURES "PEPPY" GAS.

Washington, D. C.—More "peppy" for the nation's tank will be produced by a new method of extracting gasoline from natural gas.

The Bureau of Standards devised the method.

The new method is expected to prove of far-reaching importance to the petroleum industry, as the method is expected to produce a gasoline of higher octane value than the present method of extraction.

The process of the Bureau of Standards, known as an "isothermal" method, involves the use of a mixture of natural gas and a certain amount of gasoline to produce a gasoline of higher octane value than the present method of extraction.

It is expected that the new method will be used by the petroleum industry to produce a gasoline of higher octane value than the present method of extraction.

Bill Freeman Regains Heavyweight Championship

The New York National Guard heavyweight title fell once more into the hands of Bill Freeman, colored West Pointer, when Jack Kelly of Bridgeport dropped to the canvas in the eighth round after receiving a vicious right to the jaw from the colored opponent. This battle Friday night was one of the best ever staged at the local armory. When Kelly went down in the eighth he tried hard to regain his feet and continue the fight, but before Jack Appel realized the condition of Kelly stopped the fight and sent both men to their corners.

All through the fight both men took terrific punishment. At times Kelly seemed to be almost ready to fall but then he would come through with a blow that made Freeman appear to be in the same condition.

In the second round Freeman got a break. Kelly had sent a crushing right to Freeman's jaw and the colored giant was staggering. It was then that Bill recovered the chance to recover. The strap was stopped to tighten up the bandages on Freeman's hands which had become loosened. The fight was stopped for about a half minute.

In the fifth round Kelly gave Freeman a blow on the left eye which caused a deep cut. Kelly was also bleeding about the face, having an injured nose and eye. Both fighters were handicapped not having the use of one eye.

The condition of Freeman was outstanding. Never did he seem tired. He kept up the splendid foot work all the way through and he never allowed his body to sag. On the other hand Kelly was becoming weaker each round.

Freeman was very careful from the start displaying great respect for the punching power of his smaller opponent, who at their last meeting knocked him down and out. Kelly on the other hand weaved in from the start and let fists fly in all directions, some landing and others not so good. The great negro, who appeared in perfect condition, took things very easy, seeming content to keep out of the danger zone in the early rounds. When the sixth round rolled around Kelly was far from being as robust as when he started while Freeman scored heavily in the fighting in the fifth and sixth and Kelly showed signs of weakening. A haymaker was his only chance but he didn't have the strength. Freeman had the strength and he landed in seventh and eighth and the bout was over and the colored man was again the champion.

Blain K. O's Hill.
Johnny Blaine of Kingston knocked out Herman Hill, colored West Pointer. The blow which proved fatal came in the second round. It was an upper cut.

Al Lamont of New York was announced the winner of his battle after surviving six rounds with Ray King, also of New York.

Kid Buckman of Kingston, known to the fans as one-punch Buckman, sent Joe Reilly of New York to the floor in the first round. It was at the end of the first round when Reilly went down and the bell, it was thought, would save him but he was unable to continue the battle when the second round was about to start.

Joe Myers fought Ted Mayone in a four rounder. Both are local fighters and they staged a fast fight. They both appeared ready to drop at times but neither gave in. The fight was called a draw.

Arlington Park Races.
Chicago, July 13 (P).—Heirs and heiresses presumptive to the three-year-old turf championship of America—17 of them, the outstanding thoroughbreds of the country—to-day awaited the call to the post for the American Classic, the season's richest racing stake, at Arlington Park.

FIGHTS LAST NIGHT

(By The Associated Press.)
Chicago, July 12 (P).—Jack Kelly, colored, outpointed Herman Hill, colored, at the local armory. Kelly won by a knockout in the eighth round.

New York, July 12 (P).—Dave Shade, colored, outpointed Lew Mitchell, colored, at the local armory. Shade won by a knockout in the eighth round.

Chicago, July 12 (P).—Jack Kelly, colored, outpointed Herman Hill, colored, at the local armory. Kelly won by a knockout in the eighth round.

New York, July 12 (P).—Dave Shade, colored, outpointed Lew Mitchell, colored, at the local armory. Shade won by a knockout in the eighth round.

Foxx Still Leads American Hitters

Chicago, July 12 (P).—Jimmy Foxx of Connie Mack's Philadelphia Athletics, still led American League batters after twelve weeks of the championship campaign, but by a margin of only one point over Heinie Manush of St. Louis. National averages including Wednesday's games reveal that Foxx had a mark of .354, a loss of 14 points.

Foxx experienced his worst week in nearly two months, and of all the pitchers in the league, it was against Lena Blackburne's Chicago White Sox hurlers that the Athletics' first baseman fared. Foxx invaded Chicago with a mark of .416 and left 15 points out of that figure. Manush added eight points to his average to go into second place with .355.

Others in the first ten were: Fothergill, Detroit, .355; Lazzeri, New York, .346; Cochran, Philadelphia, .335; Miller, Philadelphia, .331; Simmons, Philadelphia, .330; Heidmann, Detroit, .329; Falk, Cleveland, .327; Fomera, Cleveland, .326.

The experience in Chicago, where they dropped three out of four games, helped to prune three points from the Philadelphia team average. The league leaders still led, however, with .369, one point better than Detroit. The Tigers passed the Athletics in runs scored, having crossed hostile plates 594 times this season. The A's had held opponents to a total of 345 runs.

The leadership in team fielding was a joint affair with Philadelphia, New York and St. Louis tied with averages of .975. Cleveland made six double plays during the week, bringing its total to 91.

Bob Grove, Philadelphia ace, stepped out and got back the two defeats charged against him a week ago, and topped the regular hurlers with 14 victories and two defeats. George Blaeholder of St. Louis won one game and brought his mark to 10 triumphs and three defeats, while Rube Walberg of Philadelphia lost one for a mark of 12 wins and four losses. In the 20 games in which he had worked, Grove had a knockout collection of 105.

Averages in the National League

New York, July 13 (P).—Babe Herman is making the running this week in the race for the National League batting championship, but with the stretch only a few weeks off and more easily recognizable faces are peering at the leader from not far in the rear. The Brooklyn slugger has a mark of .393 for 70 games, with Frank O'Doul of Philadelphia in second place on a mark of .379.

The averages were issued today, including games of last Wednesday. Other leading regulars are: Terry, New York, .369; Comorosky, Pittsburgh, .364; Klein, Philadelphia, .360; Traynor, Pittsburgh, .358; Hornsby, Chicago, .358, and Frisch and Hefey, St. Louis, .355.

Unable to find a place among the topmost batters, young Melvin Ott of New York nevertheless leads in three highly valuable endeavors—in runs scored with 80; in runs batted in with 88, and in home runs with 24. The youthful Giant has been unable, however, to lift his mark above .327.

While advancing, through the melancholy at the bag end of a pennant-wrecking Cardinal slump to a personal triumph in home run hitting, Jim Bottomley of St. Louis tied a record of no less a person than Babe Ruth.

In five successive games against the Phillies from July 5 through July 9, the Cardinal first baseman punched seven home runs over the handy right field wall at Baker Bowl. The Babe hit seven in five games at the Polo Grounds in 1921. Had he been playing at Baker Bowl, he might have hit seventeen.

Bottomley's spree sent him into a tie with his teammate, Chick Hefey, and Chuck Klein of Philadelphia for second place in the National League home run derby. Each has 22. Hefey also leads in doubles with 26.

The portly and familiar figure of Burleigh Grimes overshadows the rest of the pitchers, but Guy Bush of Chicago is making a brave effort to match the Pittsburgh spit-baller, stride for stride. Grimes has won fourteen and lost one for a percentage of .933, and has pitched 156 innings and 14 complete games. Lucas of Cincinnati also has started and finished 14 engagements. Bush has won eleven and lost one for .917 in 24 games, nine complete.

Three clubs are above .300 in batting, with the Phillies back in the lead at .311. The Pirates are next with .308, and the Giants third with .307. The Giants lead in fielding with .974, one point more than the Cubs possess.

GRESS DEFEATS GILPIN IN LAKE MOHONK TENNIS

Mohonk Lake, N. Y., July 13 (P).—The Mohonk tennis tournament narrowed down to the semi-finals in men's and women's singles Friday. In a hard-fought match Valentine Gress defeated Samuel B. Gilpin in a three-set match, and Mrs. Deane triumphed over Mrs. Caroline Roberts.

The summaries:
Men's singles, semi-final round—Valentine Gress defeated Samuel B. Gilpin, 6-2, 7-9, 6-3; Percy Kynaston defeated Cedric Major, 6-3, 6-3, 6-3.

Women's singles, semi-final—Mrs. Deane defeated Mrs. Roberts, 7-5, 6-3; Mrs. Letson defeated Mrs. Frithard, 6-3, 6-4.

Men's doubles, final—Gilpin and Adams defeated Steinhamp and Townsend, 6-4, 6-3, 6-2.

Mixed doubles, third round—Mrs. J. H. Smith and Gilpin defeated Mrs. Hasselcher and Gress, 6-1, 6-0; Mrs. Letson and Hugh Oakley defeated Mrs. J. E. Bailey and Major, 6-4, 6-1, 6-2.

Fistic Outbreak Aired Before Heydler

Here are the principals in the war between the Cubs and Reds. Wilson, angered by Kolp's remarks, challenged the whole Red team and later flattened Donohue. Heydler, president, at the subsequent official hearing.

Reds-Cubs Battle a Draw

New York, July 13 (P).—A battle between the Cincinnati Reds and Chicago Cubs has ended in a draw.

The Reds scored first blood when Hack Wilson, barrel-shaped outfielder for the Cubs, was suspended for three days for invading the Reds' dugout on July 4. The Cubs gained an even break yesterday, when John A. Heydler, president of the National League, acquitted Wilson of a charge that he committed an "unjustifiable and brutal assault" on Pete Donohue, veteran pitcher of the Reds, at the Union Station, Chicago, the same night.

The feud began at Wrigley Field, Chicago, on Independence Day. Re-sentimental taunts hurled at him by Ray Kolp, Cincinnati pitcher who was sitting on the bench. Wilson left first base and rushed for the Reds' dugout. He was stopped before he gained his objective. That outbreak cost him a three day suspension and a fine of \$100.

That night as the two clubs were leaving for the east Wilson sought to enter the Red's car, intending, apparently, to make Kolp apologize or fight. Before he got anywhere near Kolp, the Cub outfielder engaged in an argument with Donohue. After insults had been exchanged, Wilson knocked Donohue down. Cooler heads halted the strife before it went any further.

The Cincinnati Club made formal protest and President Heydler began an investigation. Chiefly the League executive wanted to find out whether Wilson had attacked Donohue before the latter was in a position to defend himself.

On this point there was conflicting testimony by President Heydler, deuced that such was not the case. "I can only deduce with certainty," he said, "that the men had passed insults to each other and that Donohue in all reasonableness should have been prepared to defend himself."

The League president, although he dismissed the charges, censured Wilson for "initiating a fight in a public gathering place" and warned him that "serious consequences which must ensue unless he learns to better control himself."

ALL-STAR ROOFER FAVORS GAME WITH PAN-AM CLUB

The following letter was received from an All-Star roofer, who thinks that a game between the Kingston All-Stars and Pan-Ams would furnish the calibre of baseball local fans like:

Editor The Freeman:
Dear Sir: I read in your valuable paper that the Pan-Ams and Blue Sox are starting a series on the Fair Grounds.

If the Pan-Ams want to play a series with any club, why not play the All-Stars? They will give them all the opposition that they are seeking. I saw the All-Stars defeat the Pan-Ams in a series on the Pan-Am diamond last season, and I note the lineup that the All-Stars have this season is stronger than last year.

I am an All-Star roofer, but why don't the managers of these two clubs get together and give the fans of the city the kind of game they want to see. I hope this will start them going. Thanking you for this space in your valuable paper.

AN ARDENT BASEBALL FAN.

Two Pirates Injured.

Philadelphia, July 13 (P).—Two stars of the Pittsburgh Pirate infield will be missing from the lineup for several days at least. It was disclosed today, Pie Traynor, third baseman, and captain, may be out indefinitely and will not accompany the team to Boston tonight because of an injured left leg. George Grantham, second baseman, is nursing an injured shoulder.

Williams Equals World's Record.

Vancouver, B. C., July 13 (P).—Percy Williams last night upheld the reputation which he made last year at Amsterdam as the Olympic sprint champion by outstripping Frank Wykoff of Glendale, Cal., and equalling the world's record of 9.3 seconds for the 100-yard dash.

Tagging Major League Bases

By WILLIAM J. CHIPMAN, (Associated Press Sports Writer.)

Favorites in the two major leagues had nothing but a breeze yesterday, save the case of the Giants and the Cubs, who played each other. The young men of John McGraw rallied in the last two rounds to pull this one out by 4 to 3 in ten innings, and the Pirates gained a full game on the Bruins by the simple process of giving the Phillies their daily beating, 6 to 4. The Pirates now lead by three games.

Cornelius McGillicuddy spread gloom in St. Louis by leading the Athletics to a double victory over the Browns, 10 to 0 and 8 to 2, and at the same time added a technical half-game to his lead over the Yankees, who crushed the White Sox by 12 to 2. The Mackian margin now is eight and one-half games, seven of which are in the important lost column.

The Giant-Cub game was the most stubbornly contested battle of the day, with Larry Benton shading three Chicago rivals by a whisker at the finish. Chick Fullis's home run started the Giants toward two runs at the expense of Charlie Root in the third. These markers became larger and larger as the game wore on, but the Cubs finally broke down Benton's defense in the seventh, when Riggs Stephenson hit for circuit.

Root stepped aside for a pinch batsman in that round, and Guy Bush, who won the series opener, entered the box. The Cubs tied the game for Bush in the eighth, and gave him a margin of one run in the ninth. Bush, however, also had conceded his batting turn to another, and had to trust Pat Malone to bring in his victory. Malone retired the first two Giants in the ninth, but Lindstrom singled and Ott tripled, tying the score. Jackson met Malone's first pitch in the tenth for a home run into the left field stand.

Burleigh Grimes gave the Phillies thirteen hits at Baker Bowl, but, as usual, was stingy with runs. Two three-run outbursts by his support were sufficient to bring him his fifteenth victory. The game was unique in that no batsman cleared that right field wall.

The Cardinals gave Brooklyn fans an intimate demonstration of why the champions no longer are in the race. The St. Louisans combed Dazzy Vance for five runs in the first half of the ninth to break a 2 to 2 tie, and promptly proceeded to give the game right back to Brooklyn in the home half. Three St. Louis errors, four passes and three hits enabled the Robins to score six runs with one out to win by 8 to 2.

Billy Southworth employed Spryester Johnson, his starter, Hal Haid and Fred Frankhouse in a vain attempt to stem the ninth-inning tide. The victory placed Uncle Robby with three games of his first-division goal.

The Cincinnati Reds fought their way to within a few percentage points of an escape from the cellar by lapping the Braves for the third successive afternoon. The Reds rallied behind Rixey for two runs in the ninth to tie, and won by 4 to 3 with a single marker two innings later.

The opening game at Sportsman's Park found Mose Grove in his highest form, and he gave the Browns just five hits and no runs as his support piled up ten markers. George Earnshaw had some little difficulty with the home forces along toward the finish of the second game, but Jack Quinn saved the day. Al Simmons hit a home run in each game, and was joined by Jimmy Foxx in the nightcap.

Herb Pennock gave further proof that he is close to his best form. The Yankee southpaw allowed nine hits but scattered them, while the world champions pounded Ted Lyons and Duggan almost at will. Bob Meusel and Sammy Byrd hit homers.

The Tigers rallied for four in the ninth to win a weird game from the Red Sox by 13 to 12, and the Indians shaded Washington at Cleveland by 3 to 2.

Red Sox at Athens.

The Kingston Red Sox will play Athens Sunday afternoon at the latter's diamond. John Celuch will do the mound work for the Red Sox. All the players are requested by their manager to meet at the Post Office at 12:15.

Harvard and Yale Favored

Cambridge, Mass., July 13 (P).—Four great universities of old and New England meet here today on track and field in one of the most famous of international competitions. The joint forces of Harvard and Yale were slight favorites to repel the invaders from Oxford and Cambridge in their ninth meeting since 1899. England and America each has four victories to her credit.

The 15,000 spectators expected at the Harvard Stadium were to see a meet which has a flavor all its own. First places only count in the 12 events except in case of a tie, when second places decide the result. Only four men, one from each university, will compete in each event. Records, though they have been made often, count for little and pre-meet forecasts are more than usually hazardous. Two years ago at Stamford Bridge, England, the Americans, overwhelming favorites, were defeated 7 to 5.

Today Harvard-Yale athletes were picked to win 7 of the 12 events but the light blue and dark blue of Cambridge and Oxford may flash to the front when least expected because English training is deceptive to the American eye and the British runner has a habit of flashing his best when it counts most after treating time trials as more or less of a lark.

British hope lies in the running events, for the pole vault, high jump and shotput are conceded to Harvard and Yale. Wilfred Sartain of Cambridge will probably pick up a point for his team in the high jump. Leigh-Wood and Charles Green of Oxford and Ian Mann of Cambridge were the bright hopes of the visitors in the quarter mile, mile and 120-yard high hurdles, but they must pick up two more wins in the dashes, low hurdles and half mile to distance the Americans, as Jimmy Reid of Harvard, intercollegiate two mile champion, looked too good for Pumphrey of Oxford.

Sam Kieselhorst, Yale captain-elect, was America's hope in the 100-yard dash and the 220-yard low hurdles, but in the 100 he had to face Wilkinson of Cambridge and a Rhodes scholar at Oxford. Another Rhodes scholar on the English team, Caleb Gates, once of Princeton, was entered in the shotput.

PAN-AMS PLAY BLUE SOX AT FAIR GROUNDS

The Pan-Ams and Blue Sox will clash Sunday afternoon at the Fair Grounds. The game is scheduled to start at 5 o'clock. Johnny Carpenter will pitch for the Pan-Am Club and Joe Hoffman will be behind the bat, while Nick Huber will be on the hill for the Blue Sox with Tom Tomasecki doing the catching. This contest is expected to be an exhibition of some good baseball and a large crowd is expected.

When Art Triumphs

"Nature is the world's greatest artist," says a writer. But it must be confessed that she is quite incapable of copying the pictures on seed packets.—Humorist (London).

Long Chase

A girl in Johannesburg recently ran for 56 miles. The report doesn't say whether the man got away or not, the London News comments.

Polos Trounce Manhattan Team

Schuch, Robins and Johnson lead attack on Manhattan in game which ends in 12 to 2 score.

Heavy hitting by the Potsdam Apollo, especially that of Ed Schuch, Jack Robins and Johnson, who landed eleven hits between them, trounced the Manhattan, 12-2, in the individual League game Friday evening at the Athletic Field.

Schuch, who was batting .190 in the game, boomed his average considerably, getting five hits out of five to the plate for a perfect night. Robins and Johnson garnered three hits apiece.

Lee Straley was the victim of the heavy barrage, going the entire run for the Manhattans. Sixteen hits all were made off him.

Jack Robins was the winning pitcher. He had things his own way throughout, his teammates giving him an early lead to work on. Robins was touched for eight hits.

The Polos scored in every inning except the fifth. Their best inning was the fourth when they crossed the rubber four times.

The Manhattan runs came one at a time, scoring one in the second, one in the third, and one in the fifth. The score:

Magruder to Resume Duty

Washington, July 12 (AP)—Rear Admiral Thomas B. Magruder, "Battleship Admiral," will resume his command of the fleet at sea on July 13, after a brief leave of absence in which he visited his family in the Philippines.

Magruder has been on leave since May, when he was ordered to the Philippines to take command of the fleet at sea. He has been in the Philippines since May, when he was ordered to the Philippines to take command of the fleet at sea.

After publication in the Saturday Evening Post of an article on "The Navy and the Philippines," Magruder was removed from command of the fleet at sea and ordered to the Philippines to take command of the fleet at sea.

Magruder was removed from command of the fleet at sea and ordered to the Philippines to take command of the fleet at sea.

The new duties of Admiral Magruder place him in charge of two train squadrons which supply the scouting fleet and the battle fleet, and of mine squadrons based at Pearl Harbor, Hawaii. The supply ship Princeton, based at San Pedro, California, will be his flagship.

Market for Fruits And Vegetables

New York, July 13 (AP)—(State Department of Agriculture and Markets). New York upstate Big Boston lettuce was again in generous supply on the local wholesale district today. The demand was light and values declined further in a weak and sluggish market. Crates of two dozen heads peddled out as high as \$1.50 and as low as 25c. Romanine ranged from 50c @ \$1.25.

The moderate supply of Virginia white potatoes met a fairly prompt outlet at higher prices. The finest No. 1 cobbler changed hands at \$5.25 @ \$5.50 a barrel. New crop sweet potatoes were again in limited receipt. Bushel baskets of No. 1 stock from Georgia realized \$2.50 @ \$2.75.

Green peas were in moderate receipt from Madison county, New York. The undertone of the market at the close was slightly weak with trading rather slow. Sales were consummated at \$2.25 @ \$4, principally \$3 @ \$3.50 a bushel basket. Similar containers from California, Idaho and Washington wholesaled at \$2.75 @ \$4.25.

Price changes on Hudson valley sweet and sour cherries, currants, raspberries and gooseberries were small. On the other hand, Oswego county strawberries tended upward since yesterday.

Increased receipts of tomatoes from New Jersey weakened the market. Crates of 20 quarts of the fancy pack jobbed out at \$3 @ \$4.50. The mediums ranged from \$2 @ \$3.

Peaches are gradually increasing from the Carolinas. Fancy fruit was in demand, but inferior received little attention. Bushel baskets of No. 1 Hiley Belles from North Carolina wholesaled at \$1.25 @ \$3.50. Georgia Elberta peaches of the same grade sold at \$3.25 @ \$4.

Supplies of green corn were moderate. Good quality large stock was in demand and values averaged a shade higher. Sales on New Jersey whites packed in bags of about 75-100 ears, were consummated at \$2.50 @ \$6. The golden bantam variety brought \$4.50 @ \$6.

The Week in Wall Street

New York, July 13 (AP)—The stock market encountered considerable corrective selling this week and presented a rather ragged appearance until yesterday, when a decline of \$14,469,944 in brokers' hands, negligible in volume but the first decline since May, set the stage for another broad upswing, which carried a wide assortment of leading issues into record high territory.

At no time during the liquidation and the market developed acute weakness, although a rise in the call money rate to nine per cent on Monday, and its persistence at that rate for the rest of the week, was somewhat disappointing in view of the many forecasts of improved credit conditions after the turn of the half year. Bears concentrated their efforts against the Motors, which were inclined to heaviness during most of the week.

A revival of bullish activity on a broad scale in the utilities after profit-taking in this group last week, helped to steady the market.

The Associated Press index of twenty utilities was sent up about twenty points to a record level.

The drop in brokers' loans was regarded as indicating that the increase of about \$455,000,000 during June was caused by margining rights to subscribe new securities.

There was nothing in the Federal Reserve condition statements to indicate any immediate improvement in credit. While the increase in money this week was attributed to the reduction of the heavy New York bank borrowings at the reserve, the statements showed there had been no reduction of these loans in the week ended Wednesday.

Business news continued generally favorable, particularly statistical results coming to hand regarding operations of the first half of the year. Steel operations were maintained at 96.64 per cent of capacity during the month, as compared to 99.25 during May. Iron Age predicted that the high rate of operations would be maintained during July, and possibly August, on the basis of business now in sight. Freight car loadings reached a new high for the last week in June, and set a new high record during the first half of the year. The first earnings statements to appear for the second quarter generally bore out the optimistic estimates.

United States Steel led the upsurge in the industrials, reaching a record price and half a dozen of the independent steels broke into new high ground.

Cluett Peabody and National Bellas Hess dropped to new 1929 lows.

The rails were somewhat irregular, but were led higher by Union Pacific, Chesapeake and Ohio, Allegheny Corporation, and Great Northern preferred, all of which gained new high ground.

PONTIAC BIG 6
PRODUCT OF GENERAL MOTORS.
OUTPERFORMS ALL OTHER LOW-PRICED SIXES
The Pontiac Big Six is the fastest, snappiest, most powerful six of its price in America. The "fifth wheel," the most accurate speed measuring device known to automotive engineers, has proved that Pontiac has the highest top speed and the fastest acceleration available in any low-priced six. As for power, Pontiac is the most powerful of all low-priced sixes, a fact which can be proved by the dynamometer, a scientist's measuring stick for brake horsepower.

TRY TO MATCH THESE BIG CAR FEATURES OFFERED AT NO INCREASE IN PRICE—
BIG CAR ENGINE
The largest power plant used in any low-priced six. 240 cu. in. piston displacement. 60 brake horsepower at 3,000 r. p. m. The G-M-R cylinder head for high-compression performance with ordinary gasoline.
BIG CAR FUEL FEED
Latest type mechanical gasoline pump and filter, first introduced by Oakland, in place of the ordinary vacuum tank. Positive under all conditions. Eliminates "starving" on long hills or hard pulls of any kind.
BIG CAR LUBRICATING SYSTEM
A lubricating system without equal in the low-priced field. Adjustable pressure feed lubrication to all main bearings and connecting rod bearings. Pressure-vacuum ventilation of the crankcase to maintain the quality of the oil.
BIG CAR COOLING SYSTEM
Automatic control of operating temperature. Assures peak engine efficiency at all times. Water temperature governed by a thermostat which eliminates the inconvenience of hand operated radiator shutters and heat indicators.
BIG CAR BRAKES
The fastest and the most effective brakes to be found on any car in Pontiac's field. Two braking systems, each entirely independent of the other. Mechanical internal-expanding four-wheel service brakes—silent, protected against rain or dirt, highly efficient in any weather and requiring minimum attention.
BIG CAR ADVANCEMENTS
The Harmonic Balancer which eliminates crankshaft vibration. Exclusive expansion-fit piston pins (patent applied for) which assure quiet operation over a long period of time. A counter-weighted crankshaft, airplane type interchangeable bronze-backed main bearings. Semi-steel pistons in matched and balanced sets.

\$745
Five-Passenger 2-Door Sedan Body by Fisher

The Pontiac Big Six was introduced at prices ranging as low as \$745, f. o. b. Pontiac. And in spite of the fact that it offers every desirable big car quality—in spite of the fact that it is now available in a wide variety of popular colors—in spite of the fact that it represents the greatest value offered in the low-priced field... it continues to sell at no increase in price. Small down payment. Balance only a few dollars per month. A liberal price for your present car.

CONSIDER the difference in price as well as the fact that when you purchase a Pontiac Big Six you are getting a car that is built to last. The Pontiac Big Six is built to last. The Pontiac Big Six is built to last.

DO—IF IT IS PINE TREE
DO LOOK AT THE BACK of your hostess' silver. She wants you to. It's her cue for relating the quaintest story.
Of how that pine tree image that you see on the reverse side of her silver was once the mark of sterling on the Pine Tree Shilling—America's first silver coin. And of how it means Sterling, unmistakably, on her silver today.
Wouldn't you, too, like to possess this beautiful silver-with-a-story?
Cordially yours,

375 Killed in Floods in Persia
Teheran, Persia, July 13 (AP)—At least 375 persons were killed and several villages wiped out in floods at Tabriz on Thursday. The floods were understood to have been caused by a cloudburst.
As the number of dead represented the number of bodies recovered there were fears that the loss of life might be greater.
Roads were destroyed and it was stated that 2,000 houses collapsed and additional ones were still falling. Crops also were seriously damaged.
Tabriz is the second largest city in Persia and has a population of about 180,000.

Inside Troubles
Mankind's inner poverty, bitterness, narrowness, is the poisoned spring from which most unhappiness flows.—Farm and Fireside.
